Here at Gmail, we work very hard to fight spam. This includes not only spam coming into Gmail but spam being sent out from Gmail as well. Believe it or not, spammers sign up for Gmail addresses in large numbers just to send out spam! To help do our part to keep this junk off of the internet, we bounce mail that we are confident is spam. Unfortunately, we aren't perfect and will occasionally bounce legitimate mail. We apologize for the inconvenience.

There are a number of ways you can inadvertently confuse our automated spam filter, by sending suspicious-looking or spammy text, for example. By far the most common problem is sending mail cc/bcc'd to large numbers of recipients ("bulk mail") to send out newsletters, invitations, etc. Since spam is sent to many recipients, our spam filter is slightly more likely to confuse bulk mail with spam.

Depending on your needs, there are a number of different ways to reliably send bulk mail that avoid the pitfalls of doing it manually with Gmail. You may be interested in trying [Google Groups](#) for newsletters/ mailing lists or Calendar for sending invitations to events. Also, many other Google sites like Picasa and Youtube offer the ability to automatically notify your friends when you update your profile or upload new pictures or videos, so you don't need to email them all yourself.

If you are a Google Apps user sending to a group, please see why a [Message bounced due to Bulk Sender](#) for additional information.

**Governments not guns are the worst mass murderers in history.
Yet we are supposed to give them exclusive control of firearms.**

by Michael Cangemi
(henrymakow.com)

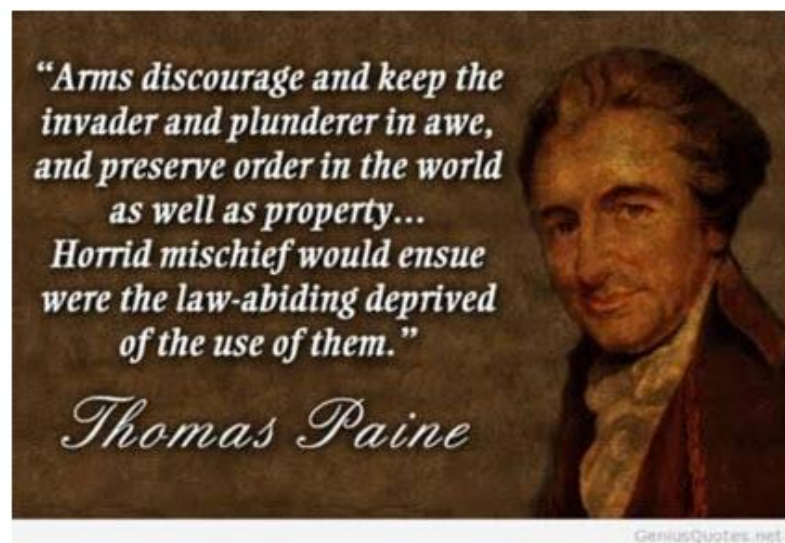

Cain committed the first murder when he slew Abel with a stone. It wasn't the rock's fault or the availability of thousands of them in the day.

During the Middle Ages, per capita murder rates were twice the highest ever recorded in the U.S. And this is BEFORE the invention of the firearm. (*Harvard Journal of Law and Public Policy*, Vol.30, No. 2).

For the estimated 300 million firearms in private hands, gun homicides are near the bottom of the list of big killers, which includes 100,000 yearly from prescription drugs. (*Townsend Letter for Doctors and Patients*).

Five times as many people are murdered <<http://thefederalist.com/2014/11/11/knives-kill-more-people-each-year-than-rifles-time-for-knife-control/>> each year by knives as by rifles (FBI stats). Where is the cry for "knife control?"

The gun control mantra by Obama and Clinton etc. is rife with hypocrisy:

1.) Governments not guns are the worst mass murderers in history. RJ Rummell puts the number of people "murdered in cold blood by their own governments" in the 20th century at near 170 million. The Soviets: 62 million; China: 35 million; The Nazis: 21 million. The remaining 52 million victims died by lesser known, but equally heinous regimes around the globe.

2.) They have presided over between 55 and 58 million murders via abortion, turning the safety of a mother's womb into a barbaric place of slaughter for infants; sacrifices to Baal. The carnage continues-almost a million this year, 3,300 daily (numbersofabortions.com). Yet they whine for "more gun control" when someone is murdered with a firearm "straining out a gnat and swallowing a camel."

3.) They justify almost 3,000 murders on 9/11, and thousands more deaths in subsequent wars by denying victims an honest investigation into the attacks. American leaders and media still ignore or attack the overwhelming evidence that this was an inside job.

The New World Order is anti-Christ and anti-God. It wishes to confiscate gun not to prevent mass killings but to perpetrate more of them than ever.

China established gun control in 1935. From 1948 to 1952, 20 million political dissidents, unable to defend themselves, were rounded up and exterminated.

Governments have historically deprived people of firearms ... and then wiped them from the face of the earth.
This is the true story of Gun control from around the world, especially in the 20th century. It details how governments have ALWAYS BEEN the biggest threat to the safety, security and prosperity of the people. While Americans can see how this could happen in other countries, most

When through a process of law, the common people have lost their homes, they will be more tractable, and more easily governed by the strong arm of the law applied by the central power of wealth, under control of leading financiers. People without homes will not quarrel with their leaders. This is well known among our principle men now engaged in forming an IMPERIALISM of capital to govern the world. By dividing the people we can get them to expend their energies in fighting over questions of no importance to us except as teachers of the common herd.
